The Woodworking Machinery Industry Association (WMIA) and the Wood Machinery Manufacturers of America (WMMA) represent different segments of the industry and were established a number of years apart, WMIA in 1977 and WMMA in 1899. But for the last 30 years, the associations have been working together as well as individually for the industry ... your industry! That’s right, they have been connecting the Industry for over 30 years! A number of years ago, WMMA and WMIA came together to form the Woodworking Industry Conference (WIC) – the “One Industry Conference” that you cannot afford to miss! Attending this “one conference” will give you a wealth of knowledge, practical information and valuable contacts for your company — an unmatched value for your business.

Why do industry professionals attend WIC year after year?

- Connect with your peers at a wide array of formal and informal networking functions.
- Contact Table Program – spend quality on-on-one time and build important business relationships.
Thank you to our WIC 2014 Sponsors!
